

## UV Laser Marking Machine for Glass Precision Tools

1. Laser marking machine for all metal and some nonmetal.
2. Fiber marking machine main for engraving/marketing all metal, such as logo, parameters, name cards etc.
3. Fiber laser marking machine has no consumables, and the lifetime of it is 100000hours, easy operation, and with high engraving/marketing speed.

### Technical Parameter

SPECIFICATIONS FOR UV LASER MARKING MACHINE			
Laser	Power Rate	W	3/5/10
	Wavelength	Nm	355
	Laser Repetition Rate	Khz	20-200
Marking parameters	Marking Scope	mm	105*105 145*145
	Marking Line Width	mm	Less than 0.01
	Marking Line Speed	mm/s	≤7000
Power Supply	Voltage	V	AC220±15%
	Frequency	Hz	50
	Current	A	12

## Application

### Applicable Materials

All kinds of metals (includes rare metal), engineering plastic, coating film, painting materials, epoxy resin, ceramics, electroplate coating materials ,spraying materials etc.

### Applicable Industry

Jewellery, keyboards of cell phone, auto parts, electronic components, electronic appliance, communication apparatus, sanitary wares, buckles, kitchenware, stainless steel products etc.

### Samples

### Certification

### Our Service

#### 1. Warranty

2 years warranty for fiber laser marking machine.

Our customer will be fully trained for the operation and maintaining technology after the order confirmed.

24-hour full after sales service. Our skilled engineer will help customer to solve the problem by Email, Skype, Wechat, QQ etc in time when problems happen. If necessary, overseas service is available.

## **2. Quality Control**

Skilled and strict Quality Inspection Team is available during the material purchasing and production procedure.

All finished machine we delivered are 100% strictly tested by our QC department and engineering department.

We will provide detailed machine pictures and test videos to customers before delivery.

## **3. Documents Support**

Certificate support: CE, ISO, FDA, CO, FORM A, FORM E, FORM F, FTA, CCPIT Certificate and so on.

All Documents for clearance customs support: Contract, Packing list, Commercial Invoice, Export declaration and so on.
